Dearest Wendy

Dont seem to hear from you at all. We are ok hope and trust you and your family the same. I will say what I have to say in short I ~~will~~ would like for my kids to go to school some where up states and I dont have to much faith in no one but you Ralph and Faith. That is to live with. So you Faith and Ralph start looking out for us a place to live. I would like to be housed and I could furnish the food, until I could get a job. I dont think my husband approve of the idea. So that wont be but the five of us. If this happen it wont be until the kids get out of school this year,. I would like you to let me know how you feel about the hole matter just as early as you can try and contact Ralph and see what he would say.

I have a job now, but I dont know just how long it will last. If it last until the last ~~X~~ of June I would like that just fine.

Now Joe and Dear will come to this conference in this month. I dont want them and Sherrod to know about this. To again I dont want to ask you because its too many people to go to one person house.

Now about the fares I am not to sure about that ~~xx~~ either, but I still want to come so Joe can finish her last year in school up there.

I do understand house expences it is up there, I know the cost of living is higher there than it is here. I understand that very clear. I willing to take a chance, because I believe it can be done. I think the kids would like to be with you because they have faith in you Ralph and Faith.

You know we are a poor family with not too much learning. I would be willing to work anywhere until I could do better. The kind of work I am doing now is factory work that is pick~~ing~~ pecan. I have worked in factory secense I was 20 year old, such as candy and Lanuday factory. I have also worked in hospital motels short order cook and mosty all sewing sometime alterations on men and women clothing. Looking to hear from you  
By your second mother
