finding the time to speak to us. I am
very grateful you and Marion shared your experiences
It was extremely helpful and I could tell you
put a lot of heart into it which a book would
never be able to do. Hearing you talk has inspired
me to work towards change in my life and help
others in the peaceful fight for equality.

Sincerely, Bella

Dear Fatima,

I think it is awesome how you helped spread the word about the March on Washington with bus banners! Lots of people wouldn't have come if there wasn't any banners. It was also interesting to learn about one of the things the KKK did and how you felt. Thank you so much for sharing about your life!

Best wishes

Hannah

Dear Marion,

I think it is amazing that you integrated a swimming pool. It was also interesting to learn about the life of an activist that you can't read in an article. Thank you so much for teaching us about your life.

Best wishes

Dear Fatima,

Thank you for giving us your time so we could interview you. I enjoyed learning about the time you had to go to the bathroom while your grandma went outside and your introduction to discrimination.

From, Dmitry

Dear Fatima, thank you for teaching
us about your experiences in the Civil Rights Movement.
I thought it was brave of you that
even though your family told you
not to go down South and that it
was dangerous because violent groups
like the KKK and the Black Legion lurked
in Southern States. You were determined
and you accomplished your goal. Thanks
again for your time.

You are appreciated!

Dear: Festina,

I enjoyed learning about how you participated in the marathon in Washington. Because I just finished learning about it and it is interesting to learn from someone that has been to the marathon in Washington. Something that surprised me was that you started to work with CORE at a young age. A question I have is how old were your parents when they started to work with CORE. F.

Dear Fatima,

Thank you being a part of our Civil Rights Movement learning experience. It was an honor meeting you! I found it really interesting how you described the March on Washington. Something that stayed with me is when you said everyone there will remember it for the rest of their life. I think that shows how special it was.

Sincerely,

Asher

Dear Fatima,

One thing I enjoyed learning from you was your first hand experience of the March on Washington. People often talk about those types of big marches so it was cool to hear an inside story! I am still wondering about how it was having activists as parents..... do you think it was different than the experiences of other kids?

Dear Marion,

One interesting thing I learned from you, is that African Americans weren't the only ones getting mis-treated during the Civil Rights Movement. It involved other minorities too! And I think that's pretty valuable information. This surprised me a little too, because when we learned about all those important marches & protests, they never really mentioned African Americans, but it's always good to learn something new!

Thank you SO much for joining our classroom on ZOOM and answering our questions. I was really surprised to hear exactly how scary life was at this time. I thought it was really interesting that you said you didn't really feel happy in Mississippi and I 100% agree. How could you feel happy when you know how much pain other people are feeling at the same time? I hope the soon to be 4th graders get the same treat you gave us.
