sending to "your"
volunteers*

Dear

Very soon you will receive a weekly \$10 money order from a group in the North. They will introduce themselves in the first letter and will expect to hear from you as to the receipt of the funds. It is important that you stay in touch with these -- your subsistence source -- for they will be worried that you did not receive the money and may not send it the following week thinking the mail is unsafe or that you are not at the address they sent it to. They will also want to know of your activities in the project you work with so that they may pass along that information as a way of involving other people in this direct support program.

If by chance our records are incorrect and you are already receiving support from a group in the North or have your own money or if you are added to SNCC payroll, please notify me immediately by letter here in Atlanta. You must realize that there are others who need this support, too, so that they may continue to work in Mississippi.

I will be happy to answer any questions you have related to your particular Northern source for subsistence. Please do not contact this Northern group to ask that they add someone else to their support list but channel that information to me by mail -- in writing -- in Atlanta or to Jesse Morris in Jackson.

Again, I cannot emphasize enough the importance of keeping in weekly touch with your Northern sponsor in order to insure that you receive the funds regularly.

For freedom,

Betty Garman
Northern Coordinator
