Miss Lois Chaffee  
Kellogg, Idaho

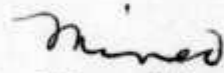

Dear Lois:

This letter is being written on behalf of the Committee on the Ministry. Since the status "in care of conference" is for students, and you are no longer in school (we understand), we are taking you off the list. If you return to school and would like to be placed "in care" again, we shall be most delighted to do so.

The committee members asked me to express their pride and support in what you are doing. Your witness in the Civil Rights struggle has been a source of great inspiration to all of us in this conference. We are also proud of the manner in which your parents have responded. They witness to their faith in the way they have related to your life in the South.

If there is anything we can do further for you, please call on us.

Sincerely,

  
Mineo Katagiri
