

Notes for position papers never written:

What we do as SNCC, apparently isn't important enough for us as SNCC to decide.

I guess we need a few people (qualified).

Cause they can decide.

Cause we as SNCC

Are too clumsy with ourselves.

It follows from the discussions in SNCC, that I should set up a structure to govern me.

What does it mean for SNCC to be free?

Really free - to burst out of ourselves.

Can we (SNCC) survive the explosion?

Could we try?

But we have a Movement to run/organize

Our ability/efforts to run/organize things would slow down

We have "no time" to know/touch deeply, each other or ourselves.

"No time" to believe what we can do, or even find out

Being free is risky/disruptive/obstructs.

So I guess we'll have to concern ourselves with running/organizing the "revolution".

The question WHO ARE SNCC'S DIS-FRANCHISED seems disturbing to "our way of life"

I move that SNCC have a flexible number of administrative assistants (between 200-250). Eliminate the role of chairman and ex. sec.

The Admin. Asst. shall have responsibility for implementing decisions of CC and shall volunteer from CC.
