

FRIDAY

MORNING ** FREE TIME TO GREET OLD FRIENDS, ETC...
READ REPORTS FROM PROJECTS

REPORTS 2:00

We, the planning committee, felt that in order to talk about structure and programmatic plans for the future, we should first find out where we are working and who is working there. These reports would be no longer than ten minutes each, and questions to find out information should be asked.

ALABAMA -- included in the report would be the recent Selma crisis and the implications of King and SCLC in Alabama for SNCC work there.

ARKANSAS-- included in the report would be why the office moved from Pine Bluff to Little Rock and the expansion plans that the move indicates.

CAMBRIDGE--recent activities by John Battiste and the march to Washington to talk to the different departments of the government will be included.

MISSISSIPPI --Each district and the Jackson office will be reporting.

SW GEORGIA -- included in the report will be its plans for expansion and the recent developments in Moultrie.

ATLANTA -- the kinds of offices and services in Atlanta and who does them.

FINANCE COMMITTEE report will be included in the Atlanta report.

NORTHERN-- included in their report is how we get money and what the northern offices do.

CAMPUS TRAVELLERS -- where they have worked and what their plans are.

ADMINISTRATIVE REPORTS

- Courtland Cox
- Ivanhoe Donaldson
- John Lewis
- James Forman

After the reports are given a committee to talk about how we can be organized to do our work will be selected by the body of staff members. This committee of thirty people will meet immediately upon being selected. They will meet Friday night and Saturday morning to talk about structure.

The committee should draw up a simple plan for setting ourselves up until the next meeting.

SATURDAY

MORNING SESSION BEGINS 10:00 AM

The report of the Committee on Structure would be presented. There would be debate, discussion, suggestions and/or modifications by the body.

We would decide on the structure and then begin to fill the positions we would need.

SUNDAY

Hopefully, the discussion on structure would be over.

BLACK BELT PLANS

FIVE workshops would be set up to discuss as specifically as possible our Black Belt Plans.

Some guidelines suggested by Mendy Samstein for discussion in the workshops are:

1. What are some projected plans for organization and expansion in Georgia; in Alabama; in Arkansas; in the entire four-state Black Belt area?

2. What projections would you make (based on your plans for immediate organization and expansion) about Summer Volunteers for Ark., Miss., Ala., Ga.?
3. Do you have any proposals for carrying out any plans you have agreed on?

Each workshop should have a recorder.

Representatives from the five Black Belt Areas workshops (one from each workshop) would meet with the Planning Committee on Sunday night and decide what should be done on Monday.

MONDAY

The planning committee felt that they could not anticipate in advance exactly how the staff meeting would go and that we should leave a block of open time to take up unresolved issues and new areas of discussion.

NOTES

Breakfast will be prepared by ourselves. It will consist of coffee, cereal, milk and doughnuts. It will be from 9:00am until 10:00 am, when the morning sessions begin.

Lunch will be served by an outside caterer at 12:00 noon.

Dinner will be at 5:30 pm

Medical Examinations:

The same people that did a medical examination of the Miss. staff at Tougaloo will do an examination of members of the entire staff. Dentists, Psychiatrists and an Obstetrician (for the ladies) will be available to the staff on Saturday and Sunday.

SNCC FILMS

The SNCC films: Streets of Greenwood, Ivanhoe, Dream Deferred The Bus, We'll Never Turn Back, are available to be shown.

CHECKS

Checks will be given out after dinner on Friday by Lavern Lilly. She prefers that project directors pick up the checks for each project.
