

SMASH THE DRAFT

APRIL 26TH 3 PM FRI.

U.S. GET OUT OF VIETNAM NOW!

We urge students who will be leaving school to participate in the international student strike to help us close down the draft board by exercising the legal right to insert statements against the war and the draft in their selective service files. We must collectively build a movement to stop the draft. Many of us will soon be drafted into the army and we plan to lead a fight against the war from inside the armed forces. Others will refuse induction and continue to attack the war and the draft from the outside.

DEMONSTRATION : DRAFT BOARD
