Dear Friends:

You are in a strategic position to help your community benefit from the Southwide Voter Education Internship Workshop. Enclosed is a program schedule for this workshop. Some of you attended last year; some of you helped to recruit last year. Those of you who know this program will be anxious to have others attend. For you who are not acquainted with the Internship Project, it is an attempt to bring adult leaders from rural and urban communities, who are in a position to put into practice what they learn, in touch with people actively involved in a community program (this time in Charleston, South Carolina, and the surrounding Sea Islands.)

The more representatives we can have from areas that have already taken some responsibility in the area of civil rights, the better the discussion can develop ideas that may be applicable and which the student can put into practice when he returns home.

A number of full scholarships have been made available by an interested Foundation which will cover transportation, board and room.

Cordially,

C. Conrad Browne
