

Tuesday - 59300

Dial - aa - Agitation

Hello, This is Darrel McLane, the vice president of the Crenshaw County Citizens Council. Today, Tuesday, sixth of July, was the regular day for the ^{voter} registrar of Chrenshaw Cohnnty to meet. The civil rights agitators in Chrenshaw County have been active today in and around your county courthouse. They have brought in a number of Nigrah applicants to present themselves for the examination. These agitators who have given us their occupation to the local authorities that they ^{(up) (authorization?)} ~~are~~ ^{arent (?)} demonstrators. Undoubtedly (?) claim that Niggers have been denied the right ~~the~~ to vote in our county. However, they have apparently neglected to look at the records. Several hundred Niggers are already registered to vote in this county, and more are registered practically every month in the year. For instance, during the first six months of this year, a total of thirty eight persons have been registered to vote in Crenshaw County. Now during this period of time before these agitators were within our midst stirring up unrest, twenty of the thirty eight registered were Nigrahs, only ~~i~~ eighteen were white. So over half of those registered were Nigruhs, and we must remember that the Nigrah population numbers only about thirty~~x~~ percent~~x~~ of the ~~mtt~~ ~~x~~ total population of our county. Therefore, we can only conclude that the only puppose of these agitators is to promote racial unrest and to further the causes of political and social revolution. THANK YOU.
