RE: Training

The following memo was sent to all chapter chairmen by George Wiley, Associate National Director:

The Extension Division of Cornell University's School of Industrial and Labor Relations is setting up a seven-day training program for sixteen CORE people at Wappingers Falls, New York, beginning September 27th, 1965. This intensive one-week program will stress techniques and skills which are important to our new community organization thrust. We expect to be able to get the CORE Scholarship; Education and Defense Fund to underwrite the cost of transportation, room and board for people attending this conference. We planned to reserve a few spaces at this conference for chapter or community people who would like to participate. Please send in the names and addresses of people you think would benefit from this program as soon as possible. We will then mail applications directly to them. We would like to have applications completed and returned by August 15th. We would then hope to have them processed and have word of acceptance back to people by September 1st.

If you or someone in your community would like to participate, let us know immediately.

Take care.
