

[1966]

Met with Rush of the Atlanta Housing Authority on Friday.

~~xx~~

1. 8624 units now in Public Housing
2. Tenant selection done entirely from two offices on 668 Fair and 521 Techwood Drive. Supervisors therexxxx have full responsibility.
3. Surplus from public housing went to the city in lieu of taxes. (This is not true since in 1961 the Authority gave the city \$212,000 and still had a surplus of 230, 000.
4. He ~~xx~~ said we do not ~~xxxx~~ make public the rules and regulations governing public housing. These rules are private. Otherwise everyone would want to determine eligibility and everyone would become an expert. But we have trained people who know what they doing to make eligibility determinations. Otherwise rumors would go around, and everyone would fee l qualified to say who was eligible.
5. The last ~~xxxxxxx~~ public report on operating expenses and income was published in 1961. Since then the Housing Authority has operated as a quasi-secret organization, over which the general public has no checks and before whom the tenants of public housing are helpless because they have no way of determining what if any are their rights. The author ity has supremex authority because there are no public rules or standards to which they can be held.
