

January 15, 1966

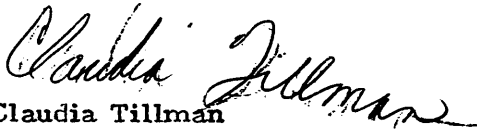

TO: THE CENTRAL COMMITTEE
FROM: CLAUDIA TILLMAN

After my job as switchboard operator (night shift), I did part time work in the Northern Coordinating office.

During the months of September, October, November and December, I worked with William Porter and George Ware as secretary in the campus program. Within this time, letters were sent to various southern colleges along with some information about the organization.

My plans for the future are to set up a library in the Atlanta office, mainly for the purpose of the staff. Books and newspapers will be ordered so as to be available for staff educational use.

In search for leadership, guidance and direction, the title
