In regards to your request for an article:

Every day we are written by persons representing magazines, newspapers, etc. wanting a written analysis and/or exposition on what the thinking and work of the Student Nonviolent Coordinating Committee now is. While we feel that it is important that our position be understood, you must realize that the work of writing such articles takes much time and energy away from our daily work.

We feel that in order to insure that there is at least some minimal gain from the work of responding to your request, that there must be a payment for the article in advance. This is reinforced by the severe financial shortage that we are now faced with.

Regards,

Stokley Carmichael
Chairman, SNCC
