

TO: Central Committee  
FROM: Evelyn Marshall  
SUBJECT: Staff Report

Since I came here after the staff meeting in May, I have been working as a general secretary working mainly with Stokely and Cleve. I had planned to work in the Program Department working with Cleve to make the Program Dept. more than just a name. However, due to all the mail our Chairman gets, this never materialized.

I plan to work much in the same manner I have been doing until we can get additional typists here in the office. I had talked with Cleve, Charlie and Forman about doing some work in research. Ruby had planned to go through Stokely's mail and assign the answers to various persons. However, Ruby is in the hospital and we still have no typists.

I still would like to do some work in reseach. I am interested in some studies of Latin America. I have done some work along ~~this~~ line while I was in school.

However, this is dependent upon Stokely's mail being programmed to other people as well which means I will probably be sitting behind the typewriter until May.
