

March, 1967

Dear Friend,

Our apologies for not keeping in contact with you for such a long period of time; and for the sudden demise of Life with Lyndon. Due to lack of funds we have been unable to continue its publications.

We are however, in the process of creating and printing publications which seek to stimulate ~~discussion~~ and question those issues in our society which affect us all, but are unpopular enough to be avoided or excused by the advocates of the "Great Society".

Enclosed you will find an example of the kind of work we are presently publishing. Also enclosed is a list of available literature and a proposal of the VOICE program. We hope that you will find the reading interesting and stimulating. We want to be able to keep printing this kind of material, but our budget is small and we are in desperate need of supplies and a subsistence income for our workers. We are asking your support to enable us to increase our volume, improve our quality of production, and to continue to exist to make the "other side of the story" available.

We hope your support is forthcoming at this crucial moment in our history.

Yours for Freedom,

William Mahoney
