SUBJECT: PLACEMENT OF LAW STUDENTS

Hello!

We wrote most of you earlier about placing a law student in your community for the summer. We have now received a fairly final list of the number of law students we will have at our disposal and are planning to send one to each of your communities.

The students are arriving at different times, some as early as the first week of June, most around the 15th or 16th of June, and a few the last week in June. We have not decided which students to assign to which communities as we would like to wait until they arrive and see what their interests are and where we feel they would best fit in.

A law students orientation session will be held for these and all other law students being placed throughout the south this summer on the 16th of June at Mt. Beulah. You are all

welcome to attend but I am uncertain at this point whether expenses for other than law students will be provided should you desire to come. Will have to inform you of this at a later date.

I am hoping that you will be able to find housing for these students. They will have very small allowances that will let them contribute towards their rent but it won't be very much. They will feed themselves. If you could get families to volunteer to keep them, it would be great as they have very little to live on.

If any of you have any questions, please let me know. Will be back in touch with all of you soon.

Best regards,

  
Marian E. Wright
