As relates to the Washington Poor People's Campaign our Department is responsible for the mobilization of the following areas:

Mississippi
Alabama

Our job in these areas is as follows:

- I. A minimum of 50 marshalls should be recruited per state (recruited and trained)
These marshalls are to attend the Atlanta workshop on March 30 and 31, 1968 and,
 - A. Go back to their areas and recruit at lest 10 persons each (total of 500 persons from each state going to Washington.
 - B. Each marshall will train the ten persons they recruit

- C. Each marshall will take the 10 persons they have recruited with them to Washington, D.C.
- D. They will marshall their 10 people on the way to Washington, and will help marshall the campaign once they arrive in Washington

PLEASE NOTE: (1) The first 50 marshalls recruited in each state should be persons who can go and remain in Washington during the entire campaign (male or female, young or old)

(2) The number of marshalls that each staff member in a state is to recruit should be specified to them (i.e., in Mississippi, Leon should be required to recruit a specific number out of the 500 persons and R. B. should be required to recruit a specific number)

(3) These persons should be ready to go to Washington around April 26th.

- II. We must get four persons from each state to go to Washington with Dr. King around April 22nd. These people must be really hard-core poor people who are able to articulate their condition.
- III. We will take fifty persons (including six marshalls) out of each state around April 25th so they will land in Washington on April 26th.
