

Freedom Now ?

*Do we really mean it or are we
ONLY SPOUTING WORDS?*

The Freedom Riders meant it -- they laid it on the line when they went to jail in Mississippi. And Medgar Evers died, proving that he meant what he said.

In the last few years thousands have gone to jail, faced dogs and firehoses, suffered beatings and abuse, to let America know they won't accept anything less than Freedom -- Freedom NOW!

We are in a war -- a war for freedom, peace and jobs. These brave people, North and South, have been winning battles for ALL of us. There are only two ways a war can end -- in victory or in defeat. We can win a lot of battles and still lose the war. We will lose, if we stop before the last battle is won, before we can say for sure that now, now we have Freedom. We can lose if you don't do your part!

Los Angeles CORE has voted to begin action against three employers who discriminate in employment. One or more of these actions will begin next Saturday, April 4th.

Hundreds are needed for picket lines, sit-ins, and other demonstrations. Plan now to do your part. Phone CORE and volunteer.

If we all act together - NOW -

WE SHALL OVERCOME !
