NON-VIOLENT ACTION COMMITTEE

The Non-Violent Action Committee is a local direct action group, working primarily in the Negro community to organize demonstration against racial discrimination and segregation against Negroes and other minorities.

BACKGROUND MATERIAL ON VAN de KAMP'S:

Even though this restaurant has a Negro cook the rest of the positions that Negroes have are bus boy, bus girl, dishwasher, or pan washer. There are no Negro waitresses, no Negro cashiers, no Negro hostesses, and no Negro managers. This restaurant is just a small part of the large Van De Kamp operation which is discriminatory throughout its organization.

THE SIP-IN

The purpose of this action is not to get into discussions with the management or other personnel about the pros and cons of discrimination or Van De Kamp's hiring policies. The purpose of this action is to take up as much space as possible and stay as long as possible. In order to accomplish this there are certain instructions to be followed

1. Try to act as much like a Van De Kamp's customer as possible.
2. Take a seat at the counter first, when those seats are filled take a seat at the booths along the window. Only one person to a booth.
3. Please order only coffee or a soft drink, or some other minor item that would take you from three to four hours to finish, or longer.
4. There will be no singing. If you desire to carry a sign feel free to do so.
5. Remember you are not breaking any law drinking coffee in a restaurant, even though it might take you 3 or 4 hours or longer to finish it. The minimum charge for coffee is \$25, including refills.
6. If you are asked to leave remember, you are a paying customer.
7. If you have any questions, please ask them before you go in.
