

WHY WE ARE DEMONSTRATING

The Board of Education has unfinished business, business which affects the welfare of every child in Los Angeles, whether black or white. Every meeting at which the Board fails to act prolongs segregated schooling in Los Angeles. CORE asks you to insist that the Board give equal education to all students now! Why does the Board continue to divide school districts along racial lines? And how long must our children be taught segregation by their own Board of Education? The Board has unfinished business -- it has delayed long enough. Please add your voice to those calling for an end to segregation here and now!
