

TO THE MADISON CHURCHES

Friends of SNCC is the organization in the North which corresponds to SNCC groups in the South. The main purpose of Friends of SNCC is to raise money and materials for the SNCC groups working in the South. We are now working on raising desperately needed funds and supplies for the Mississippi Projects.

We would like to work with the Churches of Madison and various other organizations to alert the people of Madison to the need for support of the Mississippi project.

We would like each church to aid us by informing its members of the needs of SNCC, and we will gladly supply any additional literature and speakers desired.

It is vital that intensive efforts be made now to raise money for SNCC to continue its work through the winter, as at the close of the summer many of the volunteer workers left Mississippi to return to school. The remaining workers are in great need of funds and other items for their support.

If interested, your church could assist by providing space to display our literature on our Southern projects, making appeals for funds and materials, and by providing space for collecting and packaging.

If your church is interested, or you have questions, please contact Jill Godmilow, 526 West Johnson Street, Madison--256-8983.

Your help will be greatly appreciated.
