Dear CORE Friends,

We at Berkeley Campus (University of California) CORE are always interested in the projects being carried out by other CORE groups. We feel that, up until now, there has been an unfortunate lack of direct contact among groups, to the point where we know no more about each other's activities than we can read in the national newspapers. We would very much like to amend this situation and establish direct and regular communication.

We are sending you a copy of the Campus CORE-LATOR, which is issued periodically at Berkeley. This issue describes some of the activities which went on throughout the summer months. In future issues, we would like to be able to include highlights of the activities of other CORE groups. We will be very pleased to receive any communications from you which you think would be of interest, either for the purpose of publication in the CORE-LATOR or just for the sake of keeping in touch.

Sincerely yours,

Bryson Collins

Campus CORE
