Dear Alicia,

I want you to know how much I appreciate the great effort the Friends of SNCC has put forth on behalf of the struggle to end racial injustice. My experience in the South confirmed and heightened my conviction that such groups as yours must continue to bring to the awareness of the public the tremendous need for action and support.

I want you to know that your work is a significant one, particularly in the light of the great opposition and apathy.

Sincerely yours,

James T. Sykes
