Dear Friend,

Enclosed is a list of local organizations on campus and in the community and representatives from each organization. Last Saturday a good number of them got together to see if there was some way by which one might be informed about the others interests and activities for numerous reasons such as duplication of programing, same interests, sources of information and individuals to contact regarding their organization. The representative listed is not necessarily the president of said group but a key person well informed as to the groups activities.

Another meeting has been planned for March 12th at the Lutheran Student Center on University Avenue at 1 PM when further details will be worked out. If you would like to attend or know of an organization that would like to be represented please feel free to attend and let others know.

Also enclosed is a sketch of one of the organizations that attended giving its philosophy, program and structure. If material were available for each organization in similar form, a catalogue could be prepared. The more complete the list the greater value of the catalogue. For further information please call Mrs. William Roehm, 222-5818 or Connie Parvey, 255-1812.

Most sincerely,

Heleen Roehm
