

PETITION TO PROHIBIT AFROTC, WAR RECRUITERS, AND WAR SUPPORTED INDUSTRIES FROM USING SAN FRANCISCO STATE COLLEGE TO RECRUIT PERSONNEL.

Whereas:

These organizations are engaged in crimes against humanity and it is our responsibility to put an end to such crimes.

Whereas:

These organizations are not coming to exercise their "right of free speech" but to recruit the bureaucrats, technocrats, and officers necessary to expand and perpetuate United States world domination by suppressing indigenous nationalist movements.

Whereas:

War supported industries and government agencies, particularly AFROTC, Dow Chemical, CIA, Navy, Army, are engaged in trying to secure Vietnam for the industrial power structure which controls this country and prospers off the exploitation of other countries and people throughout the world

Whereas:

The College ought not to be a supply and a training ground for a decadent, immoral and brutal system but as a place which should be devoted to a study of truth, which by its own nature would lead to an understanding about how to change this society.

Therefore:

We demand that the college (SFSC) forbid AFROTC, war recruiters, and war supported industries from using the campus.

END CAMPUS COMPLICITY WITH THE WAR IN VIETNAM!

THE WAR INVOLVES US ALL! WE MUST FIGHT THE GRINDING WAR MACHINE WHEREVER WE FIND IT. FOR US AS STUDENTS THIS HAS SPECIAL IMPLICATIONS ABOUT OUR OWN CAMPUS. SHORTLY RECRUITERS FROM THE CIA, DOW CHEMICAL AND OTHER WAR ORIENTED CONCERNS WILL COME TO SFSC. PERMANENTLY BASED HERE WITH ADMINISTRATION APPROVAL IS THE AIR FORCE ROTC. IT REPRESENTS A GOVERNMENT FORCE WHICH DESTROYS "FREEDOM MOVEMENTS" AROUND THE WORLD. IT REPRESENTS A GOVERNMENT WHICH IS CARRYING OUT AN IMPERIALIST WAR IN VIETNAM AT THE EXPENSE OF THE AMERICAN TAXPAYER. THIS WAR IS NOT FAVORED BY A MAJORITY OF SF STATE STUDENTS AND IT IS NOT IN THEIR INTEREST; WE CANNOT ALLOW THEM TO TAKE ADVANTAGE OF OUR CAMPUS.

AFROTC IS NOT AN INDIGENOUS ORGANIZATION TO STUDENT. IT BLATENTLY PROMOTES UNITED STATES MILITARISM. IT IS AN ARM OF A SYSTEM, CAPITALISM, WHICH ENFORCES RACISM. IT TRAINS MEN TO ACCEPT AND FOLLOW ORDERS WITHOUT QUESTION. THIS IS THE VERY ANTITHESIS OF THE FREE-THINKING GOALS OF EDUCATION.

IN ALLOWING AFROTC ON CAMPUS "BY INVITATION AND CONSENT" THE ADMINISTRATION HAS CHOSEN TO SPEND TAXPAYERS' MONEY TO SUPPORT THE MILITARY. THIS IS ESPECIALLY DISGUSTING SINCE MOST WORKING PEOPLE'S CHILDREN DO NOT GET INTO COLLEGE BUT ARE DRAFTED AFTER HIGH SCHOOL INTO THE FRONT LINES IN VIETNAM.

ATTACKING AFROTC AND THROWING IT OFF OUR CAMPUS ALONG WITH ALL OTHER PROMOTERS OF THE WAR IS A GOOD START. HOWEVER, THE ANTI-WAR MOVEMENT NEEDN'T CONSIST ONLY OF DEMONSTRATIONS AND FRUSTRATIONS. WE MUST UTILIZE THIS ATTACK ON AFROTC TO EXPOSE THE ROLE OF THE UNIVERSITY IN HELPING TO MAINTAIN THE PRESENT IMPERIALIST POLICY ABROAD.

COME TO THE NOON RALLIES ON OCTOBER 18 AND 19 TO ACT AGAINST AFROTC--THE GOVERNMENT'S REPRESENTATIVE OF DESTRUCTION ON OUR CAMPUS.

END CAMPUS COMPLICITY WITH THE WAR IN VIETNAM!!

SHOULD AFROTC BE OFF CAMPUS?

Recently an SDS member approached Major Robert Branch questioning AFROTC's existence on campus and offering him a chance to defend his organization on the speaker's platform. HE REFUSED. He seems to think he is not answerable to student questions or opinions. Dean Rusk exhibited the same train of thought when he recently said that the USA would continue the war in Vietnam no matter what the critics said.

We feel the demand for the campus to disengage itself from AFROTC does not involve the issue of free speech. AFROTC is on campus to recruit and train people for military purposes, not to participate in an academic dialogue. There is no place in a public educational institution for a private government recruitment agency.

AFROTC is only here by the invitation and consent of President Summerskill. Would Summerskill invite and consent to the allotment of rooms in the science building to grow Bubonic Plague cultures for use in genocidal warfare?

LET'S FIGHT TO EXPOSE AFROTC AND THEIR FELLOW PIMPS!

SDS MEETING

12:15 TUES.

HLL 349

AFROTC & WAR RECRUITERS

The AFROTC is on this campus for the sole purpose of training military pilots. They occupy a wing of our Psychology building, free of charge...and under the pretense of being an academic department. The Air Force appoints its staff of so called 'professors' and entices students into the program by paying them monthly salaries. The Faculty and the Administration signed a contract with the Air Force, allowing them to come on campus, and can terminate it if they so desire. No other organization of this nature has been allowed to occupy our buildings in order to train and pay its employees. And the Air Force uses this privilege to train those who now are ordered to commit crimes against humanity...such as the pilots who bomb the Vietnamese. Students must no longer allow this inconsistency, especially in the face of the Air Forces atrocious role in Vietnam. It is time that the college severed all relations with the AFROTC program on this campus.

Another area of college complicity with the Vietnam War involves the use of campus facilities as a recruiting grounds for war industries and military services. These groups come to our campus with the permission of the college placement office. The placement office is financed by the money from student fee funds, which is supposed to serve the needs of students educationally. Not all recruiters are allowed on campus, for example...those groups that discriminate against minority groups are not allowed the use of campus facilities for the purpose of recruiting. If this is so, how can we allow any group involved in the genocide of the Vietnamese people to use our campus for the purpose of perpetuating these acts?

Although the supporters of these groups wave a Free Speech banner, this is obviously not the real issue. We would welcome representatives from the Marines, the CIA or even Dow Chemical to speak openly on this campus and to engage the students in meaningful dialogue. But the fact is that they are unwilling to come to the campus on these terms. They wish only to recruit bodies. Therefore, why do we allow them the use of campus facilities when their intent is one of gathering in people to bolster the war machine? In fact, by allowing groups directly involved in the war effort to recruit on campus, we are indirectly responsible for the crimes they are engaged in. Now, through this convocation, we can begin to tell the warmakers that we will no longer tolerate their recruiting on campus. It is imperative that all members of the college community lend their voices and votes to this effort; for then our ultimatum will be a resounding one.

END CAMPUS COMPLICITY

THE JOINT ACTION COMMITTEE TO END COLLEGE COMPLICITY

UNITE TO FIGHT CAMPUS COMPLICITY WITH THE WAR

THE FOLLOWING ANTI-WAR GROUPS AND MANY INDIVIDUALS HAVE COME TOGETHER TO FORM A UNITED FRONT TO END CAMPUS COMPLICITY WITH THE WAR IN VIETNAM:

STUDENTS FOR A DEMOCRATIC SOCIETY, CAMPUS MOBILIZATION COMMITTEE, PEACE AND FREEDOM ORGANIZING COMMITTEE FOR SAN FRANCISCO STATE COLLEGE, YOUNG SOCIALIST ALLIANCE, INDEPENDENT SOCIALIST CLUB, AND THE PROGRESSIVE LABOR PARTY.

ALL OTHERS WHO ARE INTERESTED IN JOINING ARE WELCOME.

WE WILL DEMONSTRATE AGAINST THOSE AGENTS OF THE GOVERNMENT'S WAR IN VIETNAM WHO INTEND TO USE STATE COLLEGE CAMPUS AS RECRUITING GROUND FOR THE WAR EFFORT. THEY INCLUDE:

November 13-15	The Navy
November 20-21.....	The Marines
	The Naval Shipyard
November 27.....	The CIA
November 30.....	Dow Chemical Company
December 11-12.....	The Army

THE NAVY
IN VIETNAM -- ON CAMPUS

The S. F. Chronicle recently carried a proud announcement by the Navy of a new weapon -- the longbow. "The U.S. Navy river patrol boats operating on canals deep in the Mekong Delta shot flaming arrows into thatched huts . . . 40 miles Southwest of the delta city of Mythe patrol boats along with gunship helicopters claimed they destroyed 36 enemy huts and 15 sampans." (S.F. Chronicle, Nov. 6, 1967)

The above article is a clear indication of the role the Navy is playing in Vietnam today. The Navy has 70,000 troops engaged in Vietnam. Together with the army and marines they are carrying on an oppressive war to maintain U.S. imperialism.

Johnson recently stated that, "The key to all we have done (in Vietnam) is really for our own security." This war is being carried on to protect the interests of U.S. big business not only in Vietnam, but in Latin America, Africa and throughout the world. The American people's only interest in our government's policies in Vietnam and around the world rests in the fact that our youth are forced to be conscripted and die for policies that benefit the corporate state and not the American people.

Next Monday the Navy is coming on campus to recruit for this war of oppression against the people of Vietnam. The college is being used as an induction center. Educational facilities are being exploited by the war machine, therefore making the college a direct participant in maintaining U.S. imperialism.

THE MARINES ARE STILL

COMING!

Marines have been fighting for the last two years around the Demilitarized Zone of South Vietnam in an area known as the Eye Corps. This is the five northernmost provinces of South Vietnam, an area of 10,000 sq. miles containing 2,700,000 people.

A year ago U+S+ officials estimated there were 25,000 guerillas in this area. Today, despite claims that some 20,000 have been killed since June 1965, the guerilla strength has soared to 41,000, not including the masses of their supporters in the villages.

The Eye Corps is becoming the center of the action in Vietnam. Its fate has been in the hands of the Marines since they landed at Danang in March 1965. (There are now 76,000 marines in Vietnam. In 1966 there were 45,000 marines. This is the first time that two marine divisions have been used in one battle area since the Korean War.) The marines have been under the command of Lt. Gen Lew Walt who gained fame for flying over his units in a helicopter tailed by a spare helicopter to pick him up from the ground in case his own helicopter was shot down.

The whole idea of the Eye Corps area is the brainchild of Lt. Gen Walt. In July 1966 Gen. Westmoreland's intelligence warned him that guerillas were invading this area. He shrugged off the idea, insisting his marines had combed the area and found no trace of guerillas. Shortly after the marines were clobbered during Operation Hastings in this area. Lt. Gen Lew Walt has been replaced.

This spring Americans accidentally bombed Lang Vei, a pro-Saigon government village killing a hundred people. Two months later two guerilla battalions descended into the valley to attack the Lang Vei Special Forces camp and no villager would tip off the Americans beforehand. Despite this Gen. Wallace M. Greene stated on April 24, 1967 "We found that the people, more and more are ejecting the Viet Cong from their midst. They are refusing to be intimidated and are showing the Free World where the Viet Cong hides. They do this in direct proportion to the amount of security they are provided."

In 1965 at the most only one-third of the Eye Corps hamlets were considered safe enough to permit the election of local councils. After the collapse of the Buddhist revolt in Hue in which the Buddhist chaplains sided with the insurgents, the South Vietnamese divisions won't even fight the guerillas.

The guerilla tactic is frequently to fortify a strategically located hill and then wait until the Marines come to dislodge them. Sometimes the guerillas withdraw after launching a surprise counter-attack on a Marine assault company. The fighting is then so confused that air and artillery support are not of much help to the hard-pressed American infantry. Fifty percent of the 2000 marines who assaulted hills 881 and 861 this spring near Khe Sanh were either killed or wounded.

The marines are coming to San Francisco State to recruit on Monday, Nov. 20. End college complicity!

SAN FRANCISCO STATE COLLEGE SDS

The Marines Have Landed!

How many people do the U.S. Marines kill each day in Vietnam?
How many did they kill in Santo Domingo and Watts in 1968? Why
do the Marines kill people?

The answer is that in Vietnam, Santo Domingo and Watts
oppressed people were fighting for the right to rule themselves.
The Marines' function is to maintain United States' Imperialism
all over the world. Therefore, wherever oppressed people rebel
they become open targets for the U.S. Marines.

Today the U.S. Marines will be on our campus. They are not
here to exercise their rights of free speech. They are here to
recruit ^{people} to oppress those who fight against the U.S. Domination.
In fact, the Marines are denying freedom of speech and freedom of
self-determination to the Vietnamese people.

IF YOU STAND FOR THE U.S. WITHDRAWAL FROM VIETNAM YOU SHOULD STAND
ON THE PICKET LINE AGAINST THE MARINES TODAY AT 12:00 IN FRONT
OF THE COMMONS.

We must not cooperate with the war machine. In Oakland we
began the trend toward open confrontation with the warmakers.
The struggle must not stop in Oakland. It must be continued
today on our campus.

Confront the Warmakers
12:00 NOON

FRONT OF COMMONS

JOINT ACTION COMMITTEE TO END CAMPUS COMPLICITY

CONFRONT WAR RECRUITERS

Next Monday recruiters from the U.S. Navy are scheduled to be on campus. They are part of a continuous parade of recruiters from military and related agencies given permission to use SFSC as a personnel recruitment center for their profit making and power grabbing activities.

While the Vietnamese war has exposed these peoples' current pretensions to legitimacy, a few examples of the Navy's historic role might be informative. It should be noted, however, that in many of these instances the agency involved could just as easily have been some other part of the war machine.

In 1872, after the treaty an Admiral Meade had negotiated with a Samoan prince for a naval base at Pago Pago had been rejected by the Senate, a Col. Steinberger, agent of Pres. Grant, seized the island, proclaiming himself prime minister and the island an American protectorate. The U.S. flag remains.

The Navy has been a staunch supporter of world peace: it played a key role in torpedoing the Hague Peace Conference of 1907 and during the Geneva Arms Conference of 1927 loudly lobbied Congress for tremendous arms increases.

It has also been noted for its humanitarian treatment of prisoners: at Vera Cruz, Mexico, a former Annapolis football hero, now an ensign, applied the 'law of flight' in releasing a group of prisoners; the hapless men were told to run for a corner under a hail of Navy bullets. Few lived to get there. The ensign was openly applauded for his 'stunt.' (Sen. Doc. vol 29, no. 561.)

Beginning in the late 1890s, a naval construction program was launched to create a 'modern' Navy. Pushed by Teddy ("preparation for war is the surest guarantee of peace") Roosevelt, and the Naval League (whose founders included Midvale, Carnegie, Bethlehem, and U.S. Steel Companies), this construction led to such a modern force that it was largely unusable in World War I due to the outmodedness of the equipment. Thus the huge amounts of money spent benefited no one but the industrialists who lobbied for it.

Navy executives have been well aware of the duties expected of their forces. Thus Sec. of the Navy Curtis Wilbur said in the 1920s, "These vast interests (billions of invested dollars) must be considered when we talk of defending the flag...to defend America we must be prepared to defend its interests and our flag in every corner of the globe."

Since the Korean War, the Navy's concept of its role has notably expanded. The Navy is no longer tied to the relatively mundane task of commanding the sea. Now the sea will be utilized for projecting force to any distance that can be ~~xxxxxx~~ reached from it. (Half of the world's population lives within fifty miles of the ocean.) It is in expediting this concept that vast arsenals of rockets, aircraft carriers capable of launching nuclear bomb carrying aircraft, and rocket delivering cruisers and submarines are being built. Thus the Navy has become an ultimate weapon of destruction in itself, one of many within the U.S. military establishment's bag of tricks.

Every day this week at 1 P.M. in front of the Library, groups will meet to discuss tactics for the joint action planned for Navy's visit next week. Also, noon rallies will be held at the speakers platform on Wednesday and Thursday. Attend these meetings and come next Monday prepared for action.

S.D.S. - STOP CAMPUS COMPLICITY - S.D.S.

DUMP DOW

Dow is the 52nd largest industrial corporation in the U.S.¹ At Torrence, Calif., it manufactures all the napalm used in the war--a \$5 million sale in a total volume of \$1.31 billion.

Dow demonstrates the increasing dependence of Big Business for its profits on military contracts and foreign investments. This role of Big Business (imperialism) is not new. These same industrialists and bankers joined hands with the large German trusts and cartels that used Hitler to brutally accumulate and consolidate control over the peoples and resources of most of Europe.

Attesting to the present existence of these same old relationships is Dow Chemical. On April 6, 1965, the Badische Anilin & Soda Fabrik--largest chemical company in West Germany--celebrated its 100th birthday. Its chairman is Carl Wurster, a former chairman of I. G. Farben--the huge chemical trust that was formed during the Nazi period and which was a mainstay of the Third Reich. During this period, Mr. Wurster was not only chairman of Badische, a subsidary of I. G. Farben, but he also ran the I. G. Farben Division which included the slave labor synthetic rubber plant at Auschwitz.

The I. G. Farben trust owned 42.5% of a retail and wholesale distributor called Degesch. Wurster was on the administrative council of Degesch. It was the I. G. Farben researchers who developed the Zyklon B gas used to slaughter Jews in the concentration camps. Degesch was the firm which sold the gas to the camp at Auschwitz.

Today, Wurster's firm, the Badische Anilin and Soda Fabrik, own several American subsidiaries, among them, Computron, Inc. Furthermore, Wurster's company is in partnership with the Dow Chemical Corp. in a chemical company in Freeport, Texas, called the Dow Badische Chemical Co.

In a "Dow Confidential," a statement given to all Dow recruiters by the company, the following suggestions are made to "keep from enlarging the news value of the event:"

1. Avoid any direct confrontation with the protesters. Try to avoid encountering them on the campus. Above all, do not engage in conversation with them.
2. If necessary, make it clear to university officials, job interviewees, and others that you are there at the invitation of the university and as its guest. Tell them your only purpose there is to talk with students about the opportunities for employment at Dow and that you are not authorized to act as the spokesman for the company on any other matters.
3. If you should be approached by a bona fide representative of the press, either directly or through the university, and are asked for a statement, you may read or give him the statement which is provided. This statement is only for the press--it is not to be used as a handout to demonstrators, job interviewees, university officials, bystanders, or others. If the reporter has any further questions, you can suggest that he talk to the university officials or call Dow's Public Relations Department at Midland--(517) 636-0527.

The "Dow Confidential" ends with this comment:

"A student demonstration is a delicate and difficult situation. We recognize that each incident of this type is unique and its proper handling depends largely on the good judgment of the recruiter on the scene. In the final analysis, your best weapons will be a cool head and common sense."

In the San Francisco Chronicle of Thursday, Nov. 23rd, the following was found. "Carl A. Gerstacker, Chairman of the Board of Dow, suggested the firm might get out of the napalm business when its current federal contract expires. Although the president of Dow called napalm "a vitally needed material" and further said, "We don't think it's being used wrongly. We will not deter from supporting our young men in Vietnam.", Mr. Gerstacker said the "company's good name has been hurt by student demonstrations, attempts to boycott the relatively few consumer products, and requests that stockholders sell the stock....The student demonstrations by interfering with recruitment pose the greatest potential danger to the firm."

Dow is coming to State on Thursday, the 30th. They hope to recruit future Adolph Eichmans who will just "be following orders." We say that Dow should not be allowed to recruit killers on this campus or anywhere.

Suspend War Recruiters - Not Students

THERE WILL BE AN ALMOST ENDLESS STREAM OF WAR RECRUITERS ON CAMPUS THIS FALL. AMONG THESE ARE DOW CHEMICAL, ARMY, NAVY, CIA, ETC. THE FIRST RECRUITERS FOR THE WAR MACHINE ARE COMING TODAY: BOEING AND THE COAST GUARD.

SUMMERSKILL'S REPLY

YESTERDAY AFTERNOON PRESIDENT SUMMERSKILL, OBVIOUSLY AWARE AND AFRAID OF THE GROWING ANTI-WAR MOVEMENT ON THIS CAMPUS AND UNDER PRESSURE FROM CHANCELLOR DUMKE AND SACRAMENTO, CONVENED THE ENTIRE ADMINISTRATION AND ALL THE HEADS OF EACH DEPARTMENT IN A SECRET STRATEGY SESSION TO TRY TO SCARE AND CRUSH TODAY'S PICKETING. HE STATED FLATLY THAT THOSE WHO "IN ANY WAY IMPEDED THE EDUCATIONAL PROCESS" OR TRIED TO DISRUPT THE CAMPUS WOULD BE LIABLE TO IMMEDIATE SUSPENSION.

ACCORDING TO SUMMERSKILL THE EDUCATIONAL PROCESS WOULD BE "IMPEDED" IF BOEING AND COAST GUARD WERE UNABLE TO MAKE THEIR QUOTA FOR THE WAR IN VIETNAM. HE DICTATED THAT, "PICKETS MUST STAND THREE FEET APART, MARCH IN A CIRCLE, AND REMAIN SILENT." PHOTOGRAPHERS, HE SAID, WOULD BE PRESENT TO RECORD INFRACTIONS AND SUSPENSION WOULD BE THE PENALTY FOR THOSE WHO REFUSED TO TOE THE LINE.

SF STATE - SERVICE STATION FOR THE WAR MAKERS

THOSE STUDENTS WHO STRUGGLE ON CAMPUS TO END U.S. VIOLENCE IN VIETNAM DO NOT "IMPEDE THE EDUCATIONAL PROCESS" - THEY MAKE IT REAL. THOSE STUDENTS WHO PROTEST CAMPUS COMPLICITY DO NOT INITIATE CAMPUS VIOLENCE, THEY EXPOSE THE FACT THAT THE COLLEGE ITSELF PERPETUATES VIOLENCE AROUND THE WORLD.

SDS IS NOT USING THE CAMPUS TO RECRUIT MERCENARIES TO PATROL THE RIVERS IN VIETNAM (AS THE COAST GUARD DOES), OR THE TECHNOCRATS TO DESIGN BOMBERS FOR BOEING. WE BELIEVE THAT SUMMERSKILL'S COWTOWING TO BOEING AND COAST GUARD IMPEDES THE EDUCATIONAL PROCESS AND CREATES THE POTENTIAL FOR VIOLENCE ON THIS CAMPUS.

JOIN US FOR AN INFORMATIONAL PICKET LINE AT 12:00 IN FRONT OF THE COMMONS.

STUDENTS FOR A DEMOCRATIC SOCIETY

General Meeting on Wed., 12:00-1 in HLL 154

Campus Complicity Committee Mtg. today
after informational picketing ends.

EXPOSE - BOEING : COAST GUARD

BOEING

Time (November 25, 1966) reports that Boeing has picked up its first Pentagon order since 1958 - a \$236 million contract to develop and produce a nuclear-tipped short-range attack missile. "Boeing's massive research and development program should help it to capture a bigger share of aerospace and defense work."

Boeing appears to be doing well in its war ventures. In January 1967 it was given a \$4 billion government contract for a supersonic military transport.

The New York Times reports that Boeing's involvement in air defense includes production of helicopters, missiles, and planes. Rapid growth in 1966 and 1967 has forced Boeing to rent space all over downtown Seattle. They are now hiring 600-1000 new employees a week. And the dividend returns on stock are steadily increasing. Boeing thrives on United States war efforts!

COAST GUARD

The Coast Guard has always aimed at presenting the image of a group devoted to peaceful domestic functions. Thus in January, 1967 when their jurisdiction was changed from the Treasury Department to the Transportation Department, it was announced that they were a non-military service. They have been so successful in projecting this image that some have questioned the propriety of picketing their recruiter.

This image does not hold up to actual facts. The New York Times of February 22, 1967 reported the following regarding a hearing of the House Merchant Marine Subcommittee held on February 21: in attempting to defend a proposed budget which the Treasury Department wished to cut, Admiral Willard J. Smith, Coast Guard Commandant, said; "The Coast Guard has contributed 26 patrol boats for duty off the coast of South Vietnam and now has more than 550 officers and men in South East Asia."

Representative Paul G. Rogers, Democrat from Florida, said; the Coast Guard "has a definite tie-in to the war and I don't believe it should be cut down." "I don't see the Navy being cut down," he commented.

The Coast Guard is thus not only guilty of being a part of the United States war apparatus but is also guilty of maintaining a highly circumspect treatment of its actual function. The Coast Guard does not deserve the privilege of using the San Francisco State College campus to recruit people for its activities!
