COMMUNICATIONS CENTER
ROOM 38, EDUCATION BUILDING
SAN FRANCISCO STATE COLLEGE

In order to encourage, to develop and to maintain a systematic flow of communication on this campus, a COMMUNICATIONS CENTER has been created in Room 38 of the Education Building. This Center is an outgrowth of a committee established by the Convocation Planning group. The CENTER served a most useful function during those meetings, and it is believed that that function and others should be perpetuated.

THE COMMUNICATIONS CENTER will have two major thrusts. The first is the effort to coordinate, to gather and to distribute information disseminated by organizations, groups, departments and individuals. The second is the effort to facilitate communications among individuals, groups, organizations and departments of the college.

It is hoped that the CENTER will be granted a status of neutrality by all factions and individuals involved. By being involved with the CENTER faculty and students are not indicating support for any particular position, rather they are concerned only with providing what is considered to be a necessary function during a troubled time and a desirable service at all times.

The CENTER will attempt to gather information and to make it available to students, staff and faculty members.

The CENTER will do everything possible to check out rumors. In this, everyone can be helpful. We are asking everyone who has information which confirms or denies the accuracy of a rumor, we ask that they communicate with the center.

The CENTER will constantly have people available for discussion, for "instant therapy," and for responding to the feelings and to the needs of anyone who feels the need for such response and/or support.

The CENTER is also arranging off campus meeting places for individuals who want to share their ideas and their feelings with others. Many of these meeting will be in the homes of faculty members and of students, and the hope is that they will provide places for people to respond spontaneously to the tensions being generated on the campus and in the world of which our campus is but a part.

In response to student requests, we are attempting to maintain a liason with individual departments on the campus, and we are hopeful the departments will forward to us such information as they feel might be helpful to the students.

ANYONE WHO WOULD LIKE TO BE INVOLVED WITH THE COMMUNICATIONS CENTER IS ASKED TO DO SO. FACULTY, STAFF AND STUDENTS ARE ENCOURAGED TO JOIN THIS "ACT OF INTIMACY."

COMMUNICATIONS CENTER telephone numbers are:

(469) - 1100 That number will be manned from 8A.M. to 6 P.M.
A 24 hour answering service will be established at 647-9287

CAMPUS COMMUNICATION CENTER NEWSLETTER

January 10, 1969

The Communication Center is located in Rooms 38 and 43 of the Education Building. Our neutral organization attempts to explore all avenues of communication. This has taken on the aspects of attempting to put out a newsletter; of reproducing upon request any material brought to us by any group or individual of any position ; of maintaining a file of contacts and phone numbers for all the groups involved in the strike; and also of serving as a sort of safe retreat for people who have become mentally and emotionally confused and exhausted by the events on campus the past two months.

We invite anyone to come by and rap; we welcome anyone to come by and help. If you have any information which should be published, hear any rumors that should be checked out, etc., please call us at 469-1100.

ARRESTS

The arrests yesterday began when police began to move into the line to get a picketer who was walking with a St. Bernard. He gave the dog to a friend and began to run. The police maced that dog and the two dobermans which have been on the line and a confrontation began.

Five people were arrested: Joe Sherlock; Carlo Passalalpi; John Cleveland; Cecil Washington; Dale Hughes. They are all out on bail.

CLASSROOM ATTENDANCE

Communications Center ran a check on classroom attendance yesterday with the following results:

TIME 12:00	NUMBER OF CLASSES	% ATTENDANCE IN THOSE CLASSES
HLL	25	16%
PSS	11	31%
SCI	19	26%
ED	2	23%
ART	0	0%
PSYCH	0	0%

Foreign Language called to report that our figures for Wednesday were in error. We reported one or two classes in HLL at 11:00; however, Foreign Language reports that there were 6 classes in foreign languages being held at that time.

AFT Local 1352

This information is from Mr. Bernstein, the AFT s lawyer. When the injunction against the AFT was granted it was in the form of a suit against the AFT, the 8 members of the negotiating team from AFT and from number 1 to number 2000 John Doe picketers. Yesterday the negotiating team and 25 members of AFT were served with Temporary Restraining Orders. The expectation is that if those members persist they will be served with show cause notices which require that they show cause in court why they should not be charged with contempt of court.

Students are liable for these notices only if they are picketing in the same line as the faculty. If you are served with a Temporary Restraining Order you must accept it. AFT reports that their lawyer will be unable to handle student cases connected with the injunction.

AFT Local 1928

AFT Local 1928 is a union formed of all graduate students performing academic work (TAs, GAs, Readers, Lab Assistants, etc.). Their membership is now at 90 members according to Rider Cooley, President. They are on strike for the implementation of student demands and in support of AFT Local 1352.

AFT'S PUBLIC POSITION

Many questions have been raised regarding AFT policy on semester grades. The local administration, in particular, has been using our concern for student welfare as a wedge intended to divide us. As long as the statewide, and local, administrations continue to talk about mass firing it would be anomalous to make an agreement to turn in grades.

If the administration is truly concerned about grades, the proper course for them would be to negotiate with us and come to a settlement. Therefore, it would be premature for us to settle on a policy at this time.

Gary Hawkins
Exec. Comm.

Murray's Suspension

Murray's suspension has run out and Hayakawa has agreed not to re-impose the suspension until student trials have taken place. However, Murray will not be permitted to teach, but will be able to draw pay if he does a syllabus.

INTERDEPARTMENTAL COORDINATING COMMITTEE

The ICC has set up a Grading Board of Appeals for striking students only. ACADEMIC SENATE'S NEW POLICY FOR PASS/NO REPORT

This policy is instituted for the Fall Semester, 1968 only.

The Academic Senate passed a resolution on Friday, January 3 which allows a student the option of being evaluated either according to the regular grading

system or according to the Pass/No Report system.

The option of Pass/No Report will do the following to the students' records:

Pass: (P) Satisfactory completion of the course towards any goal, such as graduation, completion of Major or Minor Credential, etc. Units completed on this basis will not be used in arriving at a grade point average.

No Report: (N.R.) Unsatisfactory completion of course. No units earned. But the N.R. is not used in computing the Grade Point Average. Once this option has been initiated by the student it is mandatory on the instructor.

Students wishing to take up the Pass/No Report option must apply directly to the individual instructor in writing by 10:00 P.M. Monday, January 20, 1969.

DORMS

The striking students at Merced and Mary Ward Halls have teamed up with the AFT in the form of a student CO-OP to provide food to the students of the dorm, strikers and non-strikers alike. This is being done because of the inadequacy of the administration in solving its problems and meeting the needs of its students. The student CO-OP will provide at least two meals a day to the students of the dorms. The food will be provided at no cost, although donations are gladly accepted. This gesture will promote goodwill and brotherhood among the students of the dorms.

CAMPUS COMMUNICATIONS CENTER

During the Convocation at the beginning of the strike, a group of students and faculty were put in charge of coordinating runners, messages, times places, etc. After the Convocation, some of the people felt that a communications center was still necessary, and kept working; hence, the present Campus Communications Center (CCC) has evolved.

We have moved to Education 26, and can be reached at 469-1100 or 469-1240; we are open from 9 AM til 5 PM, Monday through Friday, and can be reached other hours at 647-9287.

We are involved in 2 aspects of communications. The first and primary is inter-personal communication. Our work ranges from delivering urgent messages to people to counseling distraught parents whose children have been arrested; from having a warm room with coffee available on rainy days to comforting someone who has seen physical violence for the first time and has been shattered by the experience. We more or less function in this area as we are needed. We welcome anyone confused or upset about the situation on the campus to come down, have a cup of coffee and rap with us about what this all means to you as a person.

The second aspect involves information and the printed word. We produce each day a newsletter that contains all the data relevant to the strike that we can gather. Except where highly relevant, we exclude position statements, political **tyrades**, etc; instead, our focus has been to put out factual information (who has been arrested; where meetings are; information about grades, etc.) One of the things that grew out of this was our class attendance statistics. They will be continued this semester as soon as classes are stabilized enough to make the figures at all meaningful. As time and money permit, we also reproduce relevant literature from all factions; we reproduced thousands of pass/no report petitions, over 10,000 copies of the 15 demands, and so forth.

Another aspect of this distributing information area makes us a sort of "San Francisco Swithhboard".for State College. If you have a question about something relating to the strike, most of the time we can either answer it, find out the answer, or tell you where you might find the answer. We function as rumor-trackers, so if you hear a rumor, let us know and we will do everything possible to check it out. Also, if you thing we should have some information, we should have, please call. We invite anyone interested in our work to come down and see how we operate.

WE DO NEED MONEY. ANY SIZE CONTRIBUTIONS WILL BE GREATLY APPRECIATED.

"Tim Peebles is the innocent victim of this Racist, Oppressive Society that is perpetuated at San Francisco State College. The suppressive atmosphere created on this campus by S.I. The plaintiffs are Mason Wong and Patricia Woolman; defendants are Edwin Duerr and S.I. Hayakawa. The injunction orders the defendants to show cause why the student disciplinary hearings should not be enjoined.

Three main reasons for this action are that 1) the only evidence used in the hearings are police and newspaper reports (no eyewitness reports). 2) The regulations concerning freedom of assembly are very vague. 3) Due process is not being used.

Also reported at the press conference were some statistics about the hearings: 10 students who didn't show up for their hearings were summarily suspended; 2 were suspended as a result of hearings; and 2 received letters of reprimand. There were 2 acquittals.
