TO: Interested colleagues and students
FROM: Kai-yu Hsu, World Literature Department

At the suggestion of a number of friends, two students and I have attempted to structure a brief chronological summary of the events leading up to the current crisis. We have used the Phoenix, the Gater, the city papers and our own personal files as our main sources.

Please help us to correct and amend this draft to improve its value as basic reference information to all who are interested. Just telephone or send a note to us here in the office, Hill 138, Ext. 2068, any time before January 16 and then we will redistribute a revised edition.
