Jackson: Canton

Re arrest of Claude Weaver and Ed Hollander--
they had charged them with having visited a woman and telling her that if she didn't comply with the boycott that they would do something to her six year old girl. This information came from the city attorney Goza (Canton). ~~McKkkkkkkkk~~ Goza has threatened George Raymond saying if anything happens to that little girl and if any more families are intimidated I'll hold you responsible. This suggests that George might be picked up at any time.

We think that Claude and Ed were taken to the city jail-- there is a possibility that they have been moved to the county jail--
