Re: Killing

Taken by: Judy

Bobby Miller (15) was shot and killed by a policeman Saturday night. He was allegedly trying to break into a chicken shack but his mother maintains that he was simply walking down the street when shot. Feeling in the Negro community is running strong and taking two directions: consideration of the formation of a self-defense league and taking direct and violent action against the white community, focusing on the police. Since the shooting, police have been actively dispersing any gathering of Negroes. There will be a meeting tonight of the city council to try and find a solution to the problem. The Albany movement is making plans to try and prosecute the policeman who shot the child. A mass meeting was held last night in Shiloh (capacity 900) and the place was so filled that 100 had to stand outside. There is a rumor that a group of 25 guerrillas coming down to help out in any violent activities.

Cliff will probably be leaving at noon.
