

## WATS LINE DIGEST

2 - 5 July '64

25 TWO WAY RADIOS DONATED: Fred Gardner has raised \$5,000 to purchase equipment for twenty-five two-way car radios and 5 base stations. Also included are 16-foot base station antennas and whip car antennas, coaxial cable for installation and, we hope, instructions. The stations will be set up in five systems, with a base station and five cars in each system. Plans call for 3 of the systems to be set up in the Southwest.

FREEDOM SCHOOLS START: Thursday, July 2, was opening day for Freedom Schools in 5 places: Vicksburg, Holly Springs, Clarksdale, Moss Point and Carthage. There are 40 enthusiastic students in the Moss Point school and 25-30 students in the Clarksdale Freedom School, being held in Haven's Methodist Church. -- The Carthage FS opened with about 50 students. The local residents, however, were met by the sheriff & the Leake County Superintendent of Schools, who told them that they could not use the buildings (formerly a public Negro high school). A "No Trespassing" sign was posted on the school grounds.

To prevent Negroes from attending the FS, the County Superintendent suddenly called for a summer session for Negro schools in the county. It was indicated that in some cases this summer session might replace the fall session so that students who do not attend may be set back. This session is the first of its type in the memory of local residents and is clearly aimed at thwarting the FS.

The school being claimed by the county is located in Harmony community and dates back to Reconstruction. Before it became a public school the local community donated the land and the Rosenwald Foundation provided the funds for the school. In the 1930's the school was turned into a public school, but the Negroes continued to hold title to the land and to serve as the Board of Trustees. The school was closed down by the county in 1956 and has remained vacant ever since.

HARASSMENTS: - July 2

Gulfport: About 6:40 pm on Thursday, Gibbs Kinderman and George Johnson were canvassing when a man in a red pick-up (tag C1659) stopped & began to threaten to whip their asses. Then the man got out of the truck and began to rough Kinderman up. Johnson then pulled him loose and the 2 escaped. The sheriff and the FBI were notified.

Holmes County: The Miss. Highway Patrol put a 24 hour "guard" on Steve Bingham, saying they had had a request from Steve's father to protect him. (The elder Bingham says that he had a very unpleasant hour's talk with Eastland, but that the matter of such protection was not brought up). The HP men followed Steve everywhere he went, including checking a hotel room in Jackson before he went in, standing 3 feet away when Steve was making phone calls, following him into Negro business establishments carrying rifles, etc. After more than 24 hours one of the patrolmen informed Steve that the "guard" was terminated and they drove off.
