Hattiesburg: To Greenwood: Rabbi out of hospital, and he issued a statement to the press. He left immediately by car to an undisclosed destination. With 4 other clergy. NCC people. The whole Cleveland delegation. Will have FBI protection. Hattiesburg does know where he is going. Eye very enflamed. Banged head. Good Spirits. Rabbi's: "I am deeply gratefulful to Dr. Ross and the wonderful staff of Methodist hospital. They are kindly and kindly humanitarians."

The wonderful young college men and women working with COFO, like the teachers and older volunteers, are people of a rare order. They are dedicated, concerned, beautiful individuals. I have watched them patiently instructing the aged in their citizenship rights, lifting the morale of the youth by their brotherly sharing and knowingly taking upon themselves the risks of their effort to win human rights. They will make the children's crusade pale into insignificance.

I am thankful that I could take a small portion of their burden upon myself. The continuation of this work is the greatest possible tribute to James Checny, Michael Schwerner and Paul Goodman.

In accordance with our training, we did not fight back. But though these (Spear and Owen) youngsters had ample opportunity to run they stood with me and took it. The price of Hattiesburg should have no difficulty finding our assailants. Their pick-up truck is easily recognizable and we have given full descriptions of the men and their weapons. But the Miss. law forces would rather concentrate their energy on the harassments of C6 workers.

To my own people in the south: There is only one way to stay here and not be corrupted, only one way to stay and be faithful to Israel covenant: that is to stay and stand up for decency and freedom with all the risks involved. If you cannot do that - and it is understandable if you can't - then, for the sake of our souls, leave Miss."

One Jewish man in Hattiesburg visited him in hospital and gave him prayer book. Chief Police - Hugh Herring - issued statement. Beatings were "unprovoked." "This sort of lawlessness will not be tolerated. It is regrettable that some people think they have the right to resort to physical violence as a means of expressing their feeling."
Chief of Police said that charge will be assault and battery and intent to kill. "This is a serious charge and anyone who contemplates violence should consider the consequences before he acts."

Claude Pittman, Jr., Mayor: "Violence in any form can only result in bad publicity for our fine city and will serve no worthwhile purpose during these trying times. As we have said before, any person who violates the laws of the state of Mississippi will be prosecuted."

From information given me, the attack on the 3 white workers was without cause. If such acts continue, our citizens may very well lose the freedoms we have so enjoyed.

They threatened to arrest all 12 persons. They left and had no picnic.
