Batesville: Three shots were fired past the home of Robert Miles in Batesville where two white summer volunteers are living. The house was not hit. No one was injured. The shots were heard at 11:25 p.m. Kathy Amatnick and Claire O'Connor, both summer volunteers, were sitting in a lighted kitchen when the shots were fired. The kitchen is directly behind the left front bedroom where the girls sleep. The bedroom was also lighted. Kathy thought the first percussion she heard was a tire blowout. A second percussion was heard, and Kathy was looking towards the kitchen window. She saw a blue streak at the same time she heard the noise. Kathy immediately turned out the light, and both girls dropped to the floor. Robert Miles, who was sleeping in the right front bedroom, was awakened by the second shot. He says he saw a flash coming from the road when the second shot was fired. After the second shot the girls yelled to him, and he heard no more shots. Mrs. Miles, however, reports hearing a third shot. A next door neighbor who found the Miles five minutes after the incident reports he heard three shots also. Mrs. Miles called Panola county sheriff Earl Hubbard at 11:50 p.m. A police car which Kathy believes might be the sheriff arrived at 12:10 a.m. As this car was stopping in front of the house a black and white '57 Chevrolet passed the stopped police car. The police car started again the same direction as the Chevrolet. It had been the third time the Chevrolet had passed the house after the shots were fired. At 12:20 the police car returned, coming from the opposite direction. Kathy reports that on July 26 when the Miles home was teargassed from an unidentified car a similar '57 black and white Chevrolet was seen around the Miles home. She was standing in the driveway talking with Hubbard when the car passed the house and stopped 200 feet down the road. Hubbard asked "Who are they?" and Kathy replied that she did not know. A few seconds later the car started up again.

Two weeks ago a local white told the same neighbor who called the Miles home tonight that unless Miles got rid of the white people in his home he would be killed. The next night Mrs. Miles received a call from an unidentified man who said "You better not go to sleep tonight if you know what is good for you."

Five shots were fired in the direction of the Greenwood SNCC Office from a '60 light green Galaxie Ford with Carroll County plate around midnite.  It was the second time the car had passed the office; The first time the car passed the office it turned off Highway 82 coming from Carroll County.  It returned ten to fifteen minutes later coming from the same direction; Before reaching the S.E. corner of the building, it opened fire with what is believed to be a 22 caliber pistol. Five shots are reported to have been fired as the car sped past the office on Avenue N.  The car continued to gain speed and ran through the stop sign at Avenue N and Broad.  It then continued down Avenue N. to Barrentown.

Memphis and Greenwood FBI were called.  Two agents from Greenwood interrogated people around the office.  The Greenwood police were alerted, and responded with 2 patrol cars, Number 2 and 4.  There have been no record of threats predicting any incident of this sort.  A scant investigation by the FBI, working in conjunction with the SNCC staff, have found no trace of the bullets.  A local Negro woman whose house borders on SNCC office property claims that bullets ricocheted her house.

Greenwood: Judy Richardson

The report about the beating of William Hodes from last night was not correct.  He was not beaten.

John Handy, who was arrested after Hodes, was beaten in jail.  The following is an affidavit from him.  He was arrested while standing on the corner of Avenue I and McLaurin St., engaged in protest against Henderson's grocery which is being boycotted.  The police chief pulled up in a car and told him he was under arrest.  He asked the charges and was told 'disorderly conduct'.  The officer put him in another police car which had driven up.  On the way to the station the policeman said, 'nigger I ought to make you a pot of mine.'  At the station the beating started.  First they grabbed both of my arms, twisted them painfully behind my back and kicked me six times.  Then they threw me up against the concrete wall so that my head hit the concrete three times.  Then they opened the heavy iron door of the police station with my head.  They slammed me up against the desk.  One cop smashed me in the mouth with his fist.  I was wearing a rather long goatee.  They plucked it out with their bare hands.  They shoved me up against the solid iron door of the cell, then opened it, shoved me against the bars, opened the barred door and kicked me several times so that I fell through the door into the cell.  They started kicking me while I was down.  I moaned please get me a doctor.  This brought fresh kicks.  They eventually got tired of kicking me and closed the door leaving me inside the cell.  I was bailed out about three hours later and went to a doctor and got treatment for severe contusions and lacerations as well as the internal damage from the kicks.

Handy's arrest was seen by one of the kkk's radio cars and his arrest was reported to the office.  He was one of the people who had been encouraging local kids to go to Charnagin's, a drive-in restaurant which is a white hangout.  It is felt that both the white community and the police are after him for this.

Their activities have been to distributed STUDNET VOICE and to display pictures of the man dragging the woman. They had been doing this up ½ half and hour before the arrest. ---- Backg. on bill Hodes. On Johnson Street have been doing FR work. Have been a series of incidents there - white harassment. Had been there from 11 and was now 6:00 pm.

William W. Hodes, summer vol. from NY was walking with a group of Negro st. on 1Johnson St. in Greenw. All except bill yelled at the car who had been harrassing them before during the day. About 30 seconds later the police came and got out. A white man said "he is the agitator. I will be a witness." They arrested him; twisted his arms; ran him across the street and threw him in the police car across the seat. He was hit in the ribs by a policeman. They piled hair out of his arms, pulled of SNCC button and jabbed him in the leg. When got to the station he was pushed up closed door, pushed vs desk, feet stamped on and pushed and kicked into the cell.

About 20 minutes later, 2 local people came up to the cell/ Dor was opened. Cop said is this the one. The cop said no. and they closed the door. --- 15 more minutes the FBI came and asked him if he were brutally beaten. He asked to make a phone call and he was kicked (this apparently was later, assuming it is after the FBI left...) ---When office called in found the bail was $50.00 for Fred and John and $100 for Bill. --George Johnson and Betty Garman asked to bail them out and found that the bail was $200.00 a piece. Asked to see Police Chief told; he was busy at a meeting. --- Were told by Simpson, who was sitting at desk, they could go if didn't like it. There were hordes of cops around.

After Simpson's remark a cop said 'do you want them to leave and Simpson said yes. --- 4 policemen then came up to George and pushed him out of the office. Picked him up and pushed him down the steps. At the bottom of the steps George asked if betty was coming she said yes and cop said if she hurries - and then a civilian holding a baby pushed Betty. They came back, got the money and they bailed them out!!!

John Handy looks bad.
