Leaders of Shaw Mississippi Student Union called for ageneral boycott of The Shaw Elementary and High School until certain requirements are meet by the school board.

At 7am, The MSU leaders, Aaron German, Charles Bond and James Johnson, presented the full statement of demands to Mr. Atlheimer, school principal. "We the students of the McEvans School have called a boycott because of the inadequate education we are getting. Because of this, we demand(1) sufficient supply of brand new and up-to-date books for the school, (2) well equiped work shop and labs, (3) well stacked library kncluding a section on Negro History, (4) foriegn language courses and other courses that metthe requirement for entrance to accredited colleges. The teachers of the elementary section took their students inside ans apparently locked the doors.

T e students then left and went outside the building. About an hour later, the principle came out and told the staudents that the school had been closed indefintely (elementary and high school).
