Philadelphia cont! -- Today at 10am, Sheriff Rainey, Deputy Price and DA Walter Jones and Attorney Laurel Mine came to the hotel. They said that Mr. Amos McCollan (owner of the motel across the street and a Uncle Ton) wanted the workers out of the hotel. The workers supposedly had an improper lease and Mr. McCollan had a proper lease. They served everyone but Perez with an eviction notice. The notice said a civil action, but the DA said that it meant that everyone would be arrested if they didn't leave. Rudy, Jim Collier, Ralph Featherstone, Allan Shiftan, Walter Kaufman, Richard Beamer and Ira Valentine. Workers told the sheriff that they would have to talk to their lawyer. McCollan told them that he might work something out with them. The officials sat in their car. McCollan proposed that the workers move out now, and give him five days to move his stuff out (one broken stove and one broken fan). The workers didn't answer his offer.

At 11am, the lawyer came, Howard Feldman, from the Guild. He spoke with McCollan and with mine. Feldman proposed that we move out. We moved out.

The workers started moving out their stuff. Then they decided to stay, because the local people wanted them to stay. A local woman said that "if you people leave us, they are going to kill us all." They gonna pile our bodies on top one another." The attorney recommended that they workers leave only because of the ball money and maybe they might be sent to the state prison due to having a felony trespass charge. Feldman said that he could understand.

Deputy Price and the DA forced their way up the stairs at about 11:30 am, while the lawyer talked with the DA. They said that they didn't need any search warrant then Perez asked for one. They looked into the rooms and wouldn't leave after being repeatedly asked.

4:40-- Amos McCollan said that he has lease on the house and has filed a complaint against the workers. He has gone to the sheriff's office to tell him that the workers won't leave.
