

McCords: Inar--9:25-- Wants to know where to send the SAT to be scored, Jackson or Princeton.

Tupelo: 9:50: Bernard Smith: Have now learned that an unidentified lady called the Fire Dept. at 2:30 am. A Neighbor said at first that he saw a car with three men and a woman, white, come by, get out, throw something on top of the building and then the fire started, but after talking with a cop inside his own house, the neighbor now says he didn't see anything....

FBI agen Francis Honan, Police officer Delee, and State Fire Marshall Clarence Pace are now there investigating.

At one point, Pace said, "they meant to burn this place down."

~~When~~ When asked if the deed was arson, he first said yes, then said "attempted arson:", then said he didn't know yet, and not to quote him.

The fire dept, not the police have the office machinery, said they took them "for protection" since nobody was around. We now know that they also took 5 filled out Freedom registration forms as well. Cliff is now down at the Fire station trying to recover the stuff.....

A lady up the street who has been cooperating, has been recieveing harassing phone calls....

Hattiesburg: Joyce Brown-10:25-- Lawyer John Coughlan arrived in Hattiesburg yesterday. He is presently working on pending cases in Hattiesburg, especially the Hancock- Charles Glenn Case.

Dr. Smith visited Guyot in jail yesterday. Found him in reasonable good condition. Prescribed medicine for his ulcers.

Mrs. Gray has been reciving harrassing phone calls.

Tupelo: Ike Coleman- 11:00-- Everything has been gotten back from the fire department. No freedom registration forms were taken.

Mayor of Tupelo is there. Told the workers that if they had registered with him when they first came into town, they would have had protection.

Jackson 11:50 Harrassment call on the legal phone.

McComb 6:54 Last night at 8:30 drove and were stop by five men and heavily armed with black hoods on and took the white man away. the F.B.I. was called in and found out that the man was returned to his home. The whole thing lasted for about three hours. the man is poor white man and his friends are all negroes. The motive was for harrassment. He lives in a Negro neighborhood. They have someone for contact about the machine guns that have supposedly come into McComb. Marshall Ganz has the lead to the person. Want to get in contact with him, They have had two nights there that was hot!! There was shooting around the lodge for the Freedom Schools. An un-ARMED WAS Prowling around the freedom school (White) appar. unarmed. He left the and returned with the police to get his car. He then left. There is some new info on the burnings in the Persey Quinn State park area. Up, until now the feeling was that the three white boys that were in the area are not the ones. A man that was in the area and looking at the map. One of the possibilities is that this man burned two churches. Last night at twelve thirty, Mr. & Mrs. E Bishop were returned to their home in Sumner. A truck turned on its lights, there were between three and five men on the truck. The truck started to approach the car. They back out and they were followed. Mrs. Bishop went into the house of her mothers and got a rifle and garuded the house until this morning. The truck passed by the house from twelve to four in the morning. These men have been seen every thurd. they take omento the town. They have yelled to this couple. They seem to be well out general area. It seems unlikely in the participation in the movement. There seems to be way of showing that they are involved in the movement. They are going from the office to the place to talk to the people. The F.B.I. was called in on the case. Agent talked to was uncooperative about the abduction of the white man and the Bishop incident. F.B.I. said to refer the incident to the local police. questioned about the abduction incident. The local police haven't been informed about the incidents.

Cleveland only one volunteer left after tomorrow.
