

McComb: David Gerber 6pm

Yesterday, summer volunteer Percy McGhee, Gary, Indiana, was arrested for loitering while he was drinking a coke in the courthouse. His bond was set at \$55.55. When another worker went to the ~~hgtfghg~~ jail to bond him out, jailor, Ray Pound waved a gun -at him , so he left. The FBI was called, ~~and~~ When the jail was called back, the brother of the jailor denied the incident had happened and said that if they came down, they could get Mc Gee out without difficulty. McGhee was bonded out latef in the afternoon.

Also last night, cafe owner Van Brock was arrested for -possession of illegal liquor. His bond was set at \$300, and he was bonded out during the evening. Brock was arrested earlier in the summer and was beaten by police in his cafe. Summer volunteers in McComb believe he was arrested last night because voter registration workers frequent his cafe.

Among those in McComb now are ~~Ekpkkk~~ Cephas Hughes, Negro, Baltimore, temporary project director; David Gerber, fed*1 programs; Lee _Garrett c-mmunications, Percy McGhee, several other volunteers, and two doctors from the medic al committee, Tom Levin, and Dr. Long.

Barbara Simon called from Durham to say that she and a group of six others* from Madison and Neshoba counties had been told by police to leave Durham. Their VW bus had broken down outside of Durham as they were driving to Atlantic city. They were waiting in the bus station for some money to be wired to them so they could procede by bus to Atlantic city when -police came to the group and told them they would have to leave- town (they were an integrated group).. When Barbara called Atlanta a Negro cab driver had come and was helping t the group to take their things to a hotel, so she did not anticipate any more trouble. I gave her John Salter's number in Durham if they did need assistancethowever, and-told her to call back if there were any more difficulties. She did not call back.
