Dear Mr. Moore:

The FREE PRESS is beginning a special feature aimed at providing a forum for Negro citizens to express their ideas and feelings about events and conditions in Mississippi.

The articles can use specific events to make a point, they may comment on the actions and statements of the governor and other state national officials, they may talk about the kind of discrimination that Negroes suffer and may propose ways to end it.

We are asking you, as a leader in the community, to contribute an article to this feature. It should be about 300 to 500 words long - up to two typewritten pages, or four pages in longhand.

Please use the ideas we suggested or anything else that you may think of. We hope that you will accept our invitation and send us your article as soon as possible.

Sincerely yours,

*Lucille Komisar*
