Dear Mr. Waskow:

We appreciate your interest in SNCC, and by extension, in freedom and democracy for all people.

We feel that America is basically a nation of freedom and justice-loving people, but that everyone cannot be in the South where the front lines of this battle are. By your willingness to contribute to our struggle - you have indicated that your concern is with those who are out there in the fight. With the continued interest and support of persons like yourself, we can have no doubt but that "We Shall Overcome" some day.

Yours for Freedom,

*Mike Thelwell*
