REPORT ON THE GAINSVILLE MOVEMENT  
BY SAM SHIRAH JR.

After summer picketing by a fairly strong youth council (NEACP) group, the Student Group for Equal Rights (a University of Florida group of about 300 faculty and students---mostly white) has carried on with picketing of local establishments, tutoring and a communications between whites and negroes. However communications between the races are limited. They are also working on a plan for school desegregation. A bi-raceal committee has been set up there.
