

Report, Camden, Mississippi  
February 24 tho. 27 1964  
mum. Martha J. Jones &

Camden Mississippi. February 24 tho. 27, Camden is about twenty three from Canton which is the County-seat of Madison County. The Negro Population is about 1,000 most of the of the Negroes own their land, the people who live in this community are Formers. The people in this community seen as though they are willing to do their part in the community. There are so many questions the people in the community want to know, and I don't think their is a civil right worker any where who could answer all of them. The people here are very award pf their education that they have recieve in the State.

At this point we can not tell what the community will do. We are having a mass meeting Wednesday night at Mt. Zion at 7:30 in Camden and the people we h ve contact seen as though they will be at the meeting.

The houses in the community are three to four miles part, and we don't have any tranportation to get aroung in but the community. Up to this point they have been willing to carry us aroung free. Yesterday I talk with 30 people which in miles was about 20 and I walked five of those miles. There are a large part of the community th t I haven't cover because of two rea on, one is beacuse of tranportation and the other is because I don't know where to find it. All the main roads in the community are unpaid, and ~~it~~ when it rain it is very hard to get aroung on them in a car, and it rain two days a go.

The names that are below is the people that have been contact in the community of Camden, names as follow;
