Cleveland, Mississippi

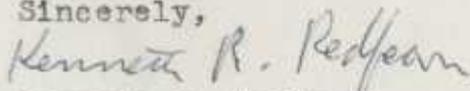

Dear Amzie Moore,

According to Fellowship food and shoes are desperately needed by Negro families in the Delta area of Mississippi. This notice also indicates that food and shoes should be sent to you.

Today my family and I mailed a small box of food to help out, and will gladly send more. But before sending more I wanted to ask you whether you prefer that we send food or cash. We're perfectly willing to buy and send food. But the postal rates are high, and perhaps you would rather have us send cash so we could send more.

Will you let me know in the enclosed envelope what is needed and what you would like us to send; then we'll send more.

Sincerely,

Kenneth R. Redfearn

P.S. I know you're busy, so just write a note on the back of this paper if you'd like and mail it to me.
