Cleveland, Mississippi

Dear Mr. Moore,

Perhaps the most humanly enlightening weekend I have experienced was the Easter weekend I and my two friends shared with you.

To answer your questions:

You wanted to know if the National Council of Churches was going to build schools in the Delta area. In answer let me explain my activities of Tuesday March 31, the first day I was back in Chicago. After calling various agencies in the city, CORE, NAACP, American Friends Service Committee, I contacted SNCC. SNCC has a three point program for the summer for Mississippi. Their Chicago office related the following to me.

Point One- Freedom schools will be established to bring education to high school students.

Point Two- Community Centers will be established to bring many social services (pre-natal care and the like) (10 centers will be established in the ~~Delta~~ Delta area).

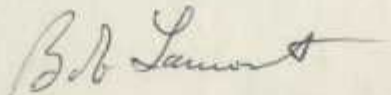

Point Three- A voter registration program will be conducted.

who I cannot give you more information than the above because I have given the pamphlets ~~at~~ that describe in detail the program to Mr. Parker, the man ~~that~~ was with me from Texas, and he is reading them now. He may have even written to you about them. I shall get another copy and send it along to you so you can have something more concrete to show your friends.

In speaking with Chicago SNCC I learned that Bob Moses, the man you mentioned, in in Jackson, his address as you probably know is Committee of Federated Organizations, 1017 Lynch Street, Jackson, Mississippi. Chicago SNCC suggested I write to Jackson and tell the COFO of our weekend. I did.

The most immediate way we feel that we can be useful is to collect and send the requested food and clothing, and later to be of some help in the summer program of SNCC if at all possible. And it looks good. Therefore we are beginning a campaign to collect food and hope it will be fruitful. It shall be. As soon as we have a quantity to ship we shall.

Until we meet again Good Luck and Peace.

Bob Lamont

P.S. over

P.S. We are preparing a program to present to our professional organization, The Southeast Suburban Social Studies Council. We hope they will respond with dollar and organizational support.

Mr. Jack
