Tuesday July 11 H

Dear Tom,

Mimi came home last night from Boston with a bad knee from falling on steps but otherwise all O.K.

You will orobably hear from her when she gets her breath.

I took your tape down town friday and played it for Hugo Law, Chairman of the Urban League. He was delighted with it and wants a copy which I have made and am sending to him today. I made a copy and sent to Phoebe air mail Friday night. I am holding the original here and expect that Law will ask me to send copies to various radio programs, etc.

It is a swell job. Make as many recordings like this as you can. They are very powerful stuff. I have played it for several people and the wheel chair preacher is priceless.

If you need tape let me know. I went down town Monday and stoked up so I have plenty on hand. Get all the first hand stuff on tape that you can. It is invaluable. Send the tapes to me and I will make copies and distribute them and hold the original. I will send a copy to Phoebe air mail as soon as I can make a copy.

You have a priceless opportunity to get dialect, religion superstition, etc. etc. If you want copies sent down to you let me know and I willsend them as I make them.

I am not having much luck gathering specific evidence of misuse of the phone. The big people in IT&T in New York are all ready to go down to Washington and demand help from FBI etc. But they must have bonafide evidence, not simply suspicion before the begin to raise a rumpus.

So far all they have that I know of is a copy of my letter to Hugo Law. Copy of this is enclosed.

Hope you are sitting better in Hattiesburg and can keep the tapes comming.

It is stinking hot here.

Pappy
