Summary of Results:

Very good conversation with Dr. Powers. He is going to have some of us over in a few weeks to meet some people in his home. Should be very helpful

Thatcher is very moderate, but may be open to some leadership role; could be one of more valuable contacts of the summer if he pans out. Agreed to see me later.

5. Comments: I hope he will join the HRC. I suspect that the editor of the Dixie news is very conservative judging from the editorial he wrote on the summer project. This may tend to keep Thatcher from doing much at all. Will write more after next meeting.
