Canton, Mississippi

Dear Jo:

We have contacted Mr. Leroy LeFlore as of this date, and we will wait to see what happens from this point on concerning his admission as well as the financial arrangements which might be made. I imagine that you will have closer contact with him than I will, but we will see what happens from this point on.

Cleo and John have told me of your decision to remain in Mississippi. My honest feeling is that it is the right decision if you can honestly feel that this is the correct decision to have made. Certainly one can appreciate the problem which you had, the recent thinking which came into this decision, and all of us here at Knox wish that you have a completely enriching experience in Mississippi. Many of us think of you and talk about you but, so far as I am concerned, I keep pretty close contact with your experiences through Cleo and John.

I know that this is not the easiest job in the world for anyone and I only hope that you approach it with every caution that might be necessary. Take care, Jo, and please accept my best wishes to you.

Sincerely yours,

Allan P. Christiansen
Director of Admissions
