Dear Lois,

It is ironic that COFO should look to NSM for ideas on tutorials at the same time that NSM, dissatisfied with the tutorial approach is looking to COFO as a model for community-political organization.

We have many materials on the tutorial and other educational programs, copies of which I've enclosed under separate cover. We are turning out some new stuff and I'll send that along when it is ready. And please do send us any and all materials you develop. We are very interested in staying in touch and being of as much help as possible.

Sincerely,

  
Dan Schechter
