October 8, 1964

Dear Amzie: -

We have sent the \$27.00 for the house mortgage payment. I wrote to Mrs. Hayes and asked if she possibly could to get the truck payments from COFO and whatever other help she needs for maintenance, but we want to know what her situation is. If COFO promised to help I don't want them to think we are taking care of everything for at this point we are about broke, but will you please let us know about the truck payments. We will do everything possible to keep them from losing it. We will take care of the house payments through December.

It was real great seeing you again. I saw Diane and Jim Bevel at Savannah. They are fine.

How have you been able to work out the purchase of their house?

Friends here would be delighted to see you again. How about getting a breather and visiting us?

Most sincerely,

Mac
