Dear Jessie,

After talking to you on the phone I explored with Slessie, our book-keeper, the possibility of sending the \$2000 for C.O.F.B. She said that this sum could not be sent until the receipts for previous monies ~~had~~ was sent to her in Atlanta.

This rule as I understand it is a standing rule for all of our project areas.

On the \$900 for the damaged auto, I don't think the responsibility for the wrecked car should be assumed by S.N.C.C. If a loan arrangement can be made with medical committee alright. If you think my judgement on this matter is in error please write and/or call and let me know.

My feeling is that whoever gave permission to the 17 yr old kid to drive the car must assume that responsibility for payment.
