

[Chicago  
Venice, Calif] [1967]

Dear Lucy-

It seems ages ago since we met at Highlander. I've not been South since, and whatever efforts I've been able to exert towards the execution of our idea have been limited, since they were by long-distance so to speak. In any case, I'm going to make another stab at it. I'm planning a trip to Jackson et al, sometime in January, if I can swing it. If you are anywhere within striking distance, and can swing the time, perhaps we can get together. It could be fruitful, and in any case a personal pleasure.

Let me know soon. In any case, I enclose a brochure

for your perusal. This was sent out to the various people in Cal. who financed the project in Holmes County. The idea for this one was the brainchild of Myles + myself, during some dialogue when he visited Cal in '64.

I hope I can see you soon -

Freedom -

Abe
