Mr. Frank Cieciorca  
Holly Springs Project  
100 Rust Avenue  
Holly Springs, Miss.

Dear Mr. Cieciorca:

We have been most anxious to have our materials used in just such a project as you describe. We have enough evidence to be fairly certain that i/t/a will work extremely well and extremely quickly in training adult illiterates. All we need from you is some guidance as to how we might help.

I am sending you under separate cover a complete packet on i/t/a and materials. You will be receiving a complimentary set of the books used in the reading program. Unfortunately we will not be holding a workshop in Mississippi. We will have to figure out some way of training your people and here I would like some guidance from you.

If you would let me have the names of others who might be coordinating such projects as yours, we could give them some literature and some orientation so that they could be more understanding and help in the leadership role. Your state coordinators would be a start on such a list.

Sincerely,

*Margaret Bushnell*
